CAD-PRINTZ® Wall Graphics

Applies to any smooth surface.

1. Clean Surface

- Always apply graphic to a smooth, clean, dry surface.
  * For larger sizes, it may be easier to have additional help.

2. Remove Graphic

- Carefully remove graphic from paper liner. Avoid adhesive to adhesive contact. If this occurs, gently pull apart.

3. Smooth

- Smooth out any air bubbles by hand during application.* If needed, smooth design with a straight edge tool such as a squeegee or credit card.

4. Save Liner

- Save the paper liner! To transfer to another location, place the graphic on the glossy liner to protect from debris or sticking to other objects.

* The CAD-PRINTZ ® Wall Graphic is made from a fabric media with a patented adhesive that will never weaken and will not leave sticky residue behind. It can be removed and repositioned over and over.
